

HYDRAFACIAL CONTRAINDICATIONS

You cannot receive HydraFacial if you have any of the following:

- Active cancer
- Botox within one week
- Nursing
- Pregnant
- Fillers within 2 weeks
- Laser treatment within 3-4 weeks or until the swelling has gone down
- Accutane within one year
- Allergic to vitamin C
- Active sunburn
- Cold sore
- Shellfish allergy

Discuss any of the following with your Esthetician:

- Autoimmune disorder
- Infection in urinary system
- Taking anticoagulants
- Taking fish oil
- Use of retinol
- Topical steroids
- Antibiotics
- Epilepsy
- Rashes or lesion

Prior to HydraFacial treatment:

- Refrain from any type of exfoliating treatments to the area of treatment for 48 hours.
- Refrain from any medium to deep chemical resurfacing and laser treatments for one month.
- Refrain from waxing and use of depilatories for 48 hours.
- Discontinue use of over the counter acne medications (Benzoyl Peroxide, Salicylic) for 48 hours.
- If you are prone to cold sores, HydraFacial may cause a break out; you may need a prescription for prophylactic treatment such as Val acyclovir. Please use medication 2 days before, during, and 2 days after.
- Avoid sun tanning or tanning creams/sprays for at least 72 hours.
- For Gentlemen's HydraFacial treatment, shaving is not recommended on the day of treatment. If you choose to shave, please shave at least 3-4 hours prior to your treatment.
